EDITOR'S LETTER

When the opportunity to publish the information that has been published in REVISTA came into my life I was exited to be a part of it. I was at the right place at the right time and I took the challenge for the love of genealogy and Cuba, and to help distribute the information that had been taken out of Cuba by the Santa Cruz family, has it was their wish.

I started helping with this publication in 1989 and in 1990 it was given to me to continue its production. It has been exiting as well as exhausting, but the information has been put in many libraries and the homes of interested parties. The goal was reached.

However, the source of information is coming to an end and this next year will be the last year I will be publishing REVISTA.

The Protocols of Camagüey are the last bit of genealogical information that is available and there is not much more left.

If any of our members would like to publish any family history in REVISTA this year is your last chance. Please write to me and I can help you do so.
